

ZOOM SECURES COMMERCIAL TAX DEPARTMENT, AP

Commercial Tax Department (CTD), one of the Government departments, it has connectivity to all the Districts and towns in the State which are above 400 locations; the CTD network is also connected to APSWAN and other Banks.

All the 400 offices and Banks access the VAT applications, it is very critical that the entire VAT servers (Application and Database servers) be very secure, Hence CTD floated Tender for the complete Network security.

Zoom Technologies (India) P Ltd., bagged the Tender contract out bidding several other vendors who are backed by American Giants.

Zoom provided a highly reliable, scalable, Security solution with High Availability (Failover). The two firewalls work in conjunction, ensuring that there is availability of servers all the time.

The security policies are deployed to allow only the authorized users, and extensive logging has been configured
