

About Zoom

Zoom Technologies is a pioneer in providing cybersecurity and cyber forensics solutions. Our clients are spread across the entire spectrum including defence, space research, banks, governments, financial institutions, universities, railways, hospitals, police departments etc.

We are leaders in the field of network, cloud technologies, cybersecurity, & cyber forensic solutions & training. Since our inception over two decades ago, we have trained over two hundred thousand engineers. We offer a world class learning environment with the best lab infrastructure and faculty with real industry experience gained by working on live projects of national importance.

100% Guaranteed Job Assistance

There is a high demand for cybersecurity and cyber forensics professionals at all times. Apart from job opportunities in India and the Middle East, network and cybersecurity engineers are also sought-after in the US and Europe.

Learning Solutions

Stromsheild – An Airbus Company

Provides the high end Military / Industrial grade firewall, to prevent attacks from even enemy countries

Stromsheild A European leader in digital infrastructure security and a wholly-owned subsidiary of Airbus Cybersecurity (100 Billion Euro group), offers smart, connected solutions in order to anticipate attacks and protect digital infrastructures.

Our expertise is available for seamless security in Industrial and Military networks.

As per our Multi-Layer Collaborative Security approach, our product ranges interact with one another to raise the

security level of IT, OT, and Cloud environments, regardless of the attack point.

These trusted, cutting-edge solutions are certified at the highest level in Europe (EU RESTRICTED, NATO, ANSSI EAL3+/EAL4+).

Some of our customers -- Indian defence, Atomic energy, Nuclear submarine, CSIR, VFS etc. just to name a few.

ENDPOINT DATA SECURITY

Egosecure – A Matrix42 Group German Company

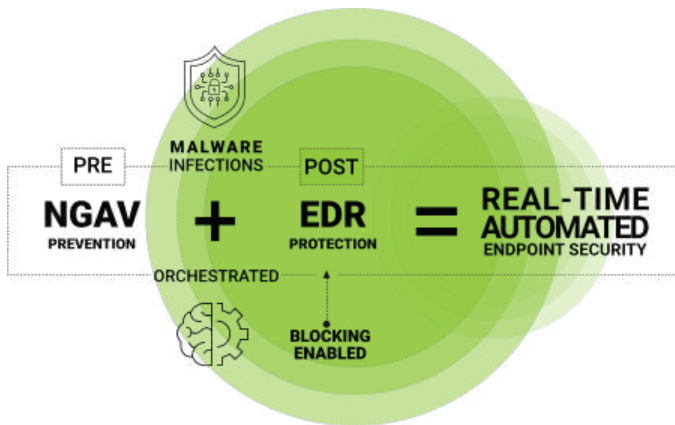

Zoom Cybersense provides endpoint security in partnership with leading cybersecurity major. Our solution focuses on these key areas: Audit, Analysis, Encryption, Management, Filtering, MDM.

Anti-virus protection and a firewall are not enough to protect data. Data is the life-blood of every organisation and for more than 10 years, we have been innovating and leading the way in the field of data protection. To date, more than 2,100 customers from every industry and of all sizes, are benefiting from EgoSecure Data Protection.

REALTIME AUTOMATED END POINT SECURITY

Using Artificial Intelligence (AI) & Machine Learning (ML)

Now-a-days Antivirus alone is no longer enough to protect a company network. We provide an Holistic approach to tackle the modern day threats like Ransomware, Doppelganging that use fileless malware attack, vulnerabilities like Chimera, Ryzenfall, Fallout & Masterkey etc. etc. using integrated NGVA plus EDR to protect the network. We help with investigation, Forensic and remediation activities using AI & ML Algorithm Technologies.

BANK ATM NETWORK SECURITY

We provide centralized security solutions to protect, monitor and control ATM Networks of large scale and small scale Banking ATM Network. We provide the most advanced set of countermeasures to protect and response to the new generation of Logical-Physical attack based on malware.

CYBER FORENSICS

Computer Forensics

The surge in cybercrime incidents over the last decade has brought computer forensics to the forefront. Computer forensics is of interest not only to the police or detective agencies but also to commercial organizations in a variety of sectors.

Data Breach

If your company's data has been breached or compromised, you need to know the extent of the breach and what impact it has had on your business and clients. Our cyber forensics team will work to find the evidence and the extent of the data breach.

Mobile Forensics

With our Mobile Forensics Solutions, we can forensically extract key evidential data from basic handsets to the latest Smartphone's from all well-known mobile manufacturers using a wide range of techniques. We are able to extract evidential / recoverable (i.e. active and deleted) data from mobile phones including physical extraction of the main board with JTAG and Chip-Off Memory for Damaged Phone.

Disk Forensics

With our Disk Forensics services, we are able to forensically extract key evidential data from digital storage media like Hard disks, USB devices, CD, DVD, Flash drives, CCTV's, DVR etc.

ZOOM'S Infrastructure & Faculty

We offer a world class learning environment, with state-of-the-art labs which are fully equipped. All our courses are hands on so you will get much needed practical experience. The difference between us and competition can be summed up in one simple sentence. Our professionals are real time professionals who also teach.

Some of our Faculty and Academic Advisors to Name a few

Dr. Y. Ramadevi

Ph. D. (CSE), M. Tech(CSE), B. E. (CSE)

28 years of total experience out of which 15 years of research experience on Machine learning, deep learning, Data Mining, Bio-Informatics, Computational Intelligence, Algorithms

Dr. K. Sagar

Ph. D. (CSE), M. Tech (CSE), B. E.

22 years of research experience on Soft Computing, Deep learning and Advanced Operating Systems

Dr. P. Suresh

BE, MTech (PE), MTech (CSE), Ph.D. (CSE)

Specialization: Image Processing, Data Mining, Soft Computing & Information Security

Dr. M. Swamy Das

Ph. D. (CSE), M. Tech (CSE), B. E. (CSE)

Specialization: Image Processing, AI&ML & Network Security

Sri R. Srikanth

M.Tech (CSE), (Ph.D.)

Specialization: Machine Learning, Deep learning, artificial intelligence, cloud computing

Sri B. Ramana Reddy

M.Tech (CSE), (Ph.D.)

12 years of experience on IoT, embedded systems, bigdata security and cloud computing

Smt. Kratika Sharma

Assistant Professor

B.Tech, M.Tech (CSE)

Specialization: Digital Image Processing, Artificial Intelligence & Middleware Technologies, Bigdata analytics

Dr. R. Ravinder Reddy

Associate Professor

Ph.D. (CSE), M. Tech (CSE)

Specialization: Computer Science, Cyber security & cyber forensics

Smt. G. Vanitha

Assistant Professor

M.Tech (CSE), (Ph.D)

Specialization: Natural Language Processing, ML & AI, Automata & Cloud Computing

Smt. P. Vimala Manohara Ruth

Assistant Professor

M.Tech (CSE)

Specialization: Machine Learning & Computer Networks

Dr. Ananda Kumar Kinjarapu

He comes with 20 year of rich teaching experience in Computer Science. He specializes in teaching Artificial Intelligence, Machine Learning, Embedded Systems & IoTs. He is an expert in OCR technology.

Prof. Rajeev Wankar (Academic Advisor)

Rajeev Wankar is a University of Hyderabad faculty who is teaching Parallel & Grid Computing . He is a DAAD Research Fellow.

Dr. Salman Abdul Moiz (Academic Advisor)

Works for University of Hyderabad with more than 19 years of Teaching and Research experience. Worked as a Research Scientist @ CDAC.

Prof. C. Raghavendra Rao (Academic Advisor)

Prof. C. R. Rao working as a Professor in University of Hyderabad. He has guided more than 15 Ph.Ds. and 78 publications.
