

Zoom sets up 24 / 7 Anti-Virus & Malware Support Centre in India

A state-of-the-art 24 / 7 support centre has been setup in India by Zoom Technologies. This is the first of its kind in the complete Asia Pacific Region.

This support centre has been set up to help the Industry fight against Viruses, Worms, Trojans, Spyware, Spam and other malicious softwares. The centre will help clients to plan, develop, implement and support security solutions across India. A strong team of certified research personnel with expertise in polymorphic, metamorphic and other complex viruses provide help to the customers round-the-clock, seven days a week.
