ZOOM Technologies forays into Gujarat (Surat) with Cybersecurity and Forensics!

For the first time in Gujarat, Zoom Technologies India Pvt.Ltd., the pioneer in cybersecurity and forensics, launched a state of the art cybersecurity training and solutions center in Surat on January 24th, 2018.

Gujarat has traditionally been famous for its diamond and textile industry. Those aspiring to work in the tech industry had to go elsewhere for training and jobs. Lack of local resources and trained personnel has also largely kept big tech multinationals away from the state.

To address the growing demand for trained cybersecurity and IT professionals, Zoom has taken the initiative to set up Surat's first exclusive academy focused on cybersecurity, networks and forensics. This will serve a dual purpose-create a large base of well trained IT professionals and also attract large multinationals to set up shop in Gujarat due to the availability of local talent.

ZOOM Technologies (India) P. Ltd. # 40/A, 3rd Floor, River Front Building,
Opp. Dutch Garden, Nanpura, Surat - 395 001, Gujarat, India.
Tel: +91-261-247 2695 / 3695 | Cell: +91-82387 77483

eMail: surat@zoomgroup.com | www.zoomgroup.com

The Center was inaugurated by Chief Guest Sri Purnesh Modi BJP MLA, Surat in the presence of the Guest of Honour Sri Atul Shah, BJP corporator and spokesperson Mumbai, along with Mr MH Noble, CEO, Zoom Technologies (India) Pvt. Ltd., Mr. QA Tapia, Vice President, Mr. Siva, General Manager, Zoom Technologies (India) Pvt. Ltd and Mr. CH Srinivas, Senior Manager, Zoom Technologies (India) Pvt. Ltd.

Zoom has invested into this high-end, one-stop cybersecurity and network solutions hub with dedicated Centers for Excellence in Cyber security, Virtualization, Cloud Computing and Mobile Forensics. It brings more than two decades of expertise to the table, with experience in providing cutting edge solutions to Defence, Intelligence, Banking, top Corporates and Scientific Research sectors.

Mr. MH Noble, CEO, Zoom Technologies, giving a tour of the state of the art lab to Sri Purnesh Modi and Sri Atul Shah

The Center for Excellence in Cyber security is being established in partnership with the reputed US-Council (www.us-council.com), with a mission to fight cybercrime and make the cyber world a safer place. This Center offers certification courses to equip security professionals with the skills to protect data and networks from malicious intruders. The tools and techniques that will be imparted are vendor or platform agnostic. The topics include Ethical Hacking and Countermeasures Expert; Network Penetration Testing Expert; Network Security Expert; Digital Forensics Expert; Mobile Forensics Expert and Wireless Security Expert.

"Our endeavor is to train the cyber security experts of tomorrow who are equally at ease in protecting the conventional or the latest cutting edge network. The center has a world class training environment with security experts as instructors with several years of industry experience," says Mr. Noble.

The Center for Excellence in Virtualization and Cloud computing will focus on providing training on industry's leading platforms like VMware, Microsoft and Amazon. This Center has great significance as virtualization and cloud computing have become ubiquitous in data centers. Mmre and more organizations are moving towards these technologies because of the enormous cost savings as well as the scalability that they offer. Virtualization helps to optimize IT service delivery and improves the automation and flexibility of IT infrastructure.

"Our training is fine tuned to cover the entire gamut of skills required to design, configure and manage a Virtual Data Center environment. This is the first center of its kind in Gujarat and will help professionals and students get trained in technologies which are most in demand in the job market, right here in their own state," adds Mr. Noble.

About Zoom Technologies

Zoom Technologies (India) Pvt. Ltd has been at the forefront of introducing cutting edge technology in India for the last two decades. Zoom is a pioneering leader in cybersecurity solutions, with a number of firsts to its credit. Right from setting up the first secure VPN in India in 1996 between Hyderabad and Lausanne, Switzerland, to building India's largest WAN network in 2003 for the CARD project, to setting up the 24X7 anti-malware lab, Zoom has always pushed the frontiers of technology. We design and build secure, robust, fault tolerant and scalable networks and excel at it.

Our clients include Defence Labs, Space Research Organization, ISRO, Atomic Energy Department, Indian Railways, Hyderabad Central University, Osmania University, Nalsar University, the National Police Academy, IDRBT, CDFD, AP Commercial Taxes Department, Council for Scientific and Industrial Research CSIR and a host of Banks, Hospitals and Financial Organizations.

Zoom has pioneered many life-changing solutions. The ideas of e-seva, APSWAN and several other e-governance initiatives were sown by Zoom two decades ago.

Zoom also has a formidable reputation in training, having trained over 200,000 network engineers since its inception. We offer a complete range of courses from the basic to the advanced including MCSE, Linux, CCNA, CCNP, CCIE, VMware, Microsoft Cloud, Microsoft Azure, Ethical Hacking, Firewalls and Security, etc.
