Zoom launched a Center for Excellence in Cyber Security and Virtualization in Vijayawada, Andhra Pradesh on 16th of February, 2017.

The Center for Excellence has state of the art labs for cybersecurity, networking, virtualization and cloud computing.

The futuristic center was inaugurated by Sri Palle Raghunatha Reddy, Hon'ble Minister for IT, Andhra Pradesh.

Mr. Noble, Managing Director, Zoom Technologies gave Sri Palle Raghunatha Reddy a guided tour of the facility, including the fully equipped classrooms and the top-notch labs

Mr. Noble addressed the media and talked about how this Center for Excellence would play a big role in bringing world class training to the state of Andhra Pradesh. The Center offers courses in cyber defense, intrusion prevention, virtualised data centers and cloud technologies. This would help students and professionals gain skills which are in great demand in the industry.

Mr. Ch. Srinivas, Mr. Siva Kumar and Mr. Q. Tapia (Zoom Technologies), also spoke at length about Zoom's considerable experience in security solutions and the wide range of critical infrastructure projects that Zoom has been involved in.

The Center will also offer threat intelligence services, botnet tracking, tailored threat reporting, penetration testing, ATM / PoS security assessment and telco network security audit.
