

ZOOM

TECHNOLOGIES

EDUCATION ACADEMY

Zoom Technologies, network and security experts for over two decades trains around 1,000 students every month across Hyderabad. we are an organization which has already trained over one hundred thousand engineers.

WHY ZOOM?

Zoom offers all that is crucial to become a thorough networking professional. Equipment physically available: It's not a virtual set up, rather a live WAN/LAN setup with equipments like Cisco routers, Switches, MUXs, DSU, CSU and Telco devices comparable to the best labs in the world. The courses offered are not just vendor-driven, but also technology-driven. So, even saying our labs are world-class or state-of-the-art would be an understatement.

Training under industry experts: Most importantly the faculty who teach here are not mere academicians, but real networking experts who are involved in live projects. All this at an affordable price.

Zoom education academy has a reputation in providing quality IT training and is the most preferred institution for students and professionals from such countries as Europe, Middle-East, Africa, Australia and a large part of Indians working in US who come to India to upgrade their skills.

INFRASTRUCTURE

Only lab in Telangana and Andhra Pradesh with CCIEV4 (latest version) Cisco-prescribed equipment.

More than 30 routers and switches are physically available for students and not just virtual access.

At Zoom technologies, hands-on experience with key components like switches, high-end routers, telco devices, MUXs, CSU & DSU which are crucial during the learning process, give students the much-needed practical exposure.

FROM THE HORSE' MOUTH

Our faculties are not mere academicians, rather true network professionals involved in real-time projects. Zoom technologies boasts of a team of over 250 highly qualified engineers working on live projects. These industry experts have trained several CCIEs for over a decade now.
